

Suspended Lamp OXY E27 40W ø250mm Transparent glass Black

EXO

Oxy is a collection of decorative indoor luminaires based on glass spheres. This extensive range, which already included wall lights and various pendant options, is being expanded this year with new wall lights featuring a steel base in a white finish and 200 mm opal or alabaster-effect globes, as well as new single pendants with a matching white steel ceiling rose, available with 200 or 250 mm globes in opal or alabaster-effect finishes. These additions enhance the aesthetic versatility of the collection and broaden its potential applications across all types of interior projects. The collection also includes other wall and single pendant models in various sizes, made with steel bodies in chrome, black or gold finishes, and glass globes in either opal or clear versions. These combinations allow each piece to be adapted to different interior styles, providing soft, uniform light. In addition, Oxy includes double and triple pendant models mounted on industrial-style black-finished frames. This year, these models are also available with alabaster-effect globes, in addition to the original opal glass option. Finally, the collection features a pendant version with a 3.5-metre cable, designed especially for creative installations. This format enables zigzag layouts or right-angle arrangements, adding a sculptural dimension to the lighting composition. Thanks to its wide variety of formats, finishes and combinations, Oxy offers multiple solutions for a diverse range of interior projects – from the most classic to the most contemporary.

GENERAL DATA

Category	Pendant
Family	Oxy
Body color	[02] Black
Location	Indoor
Installation	Ceiling
Body material	Steel
Diffuser material	Transparent glass
ETIM class	EC001743
EAN	8433264116682

LIGHT SOURCES

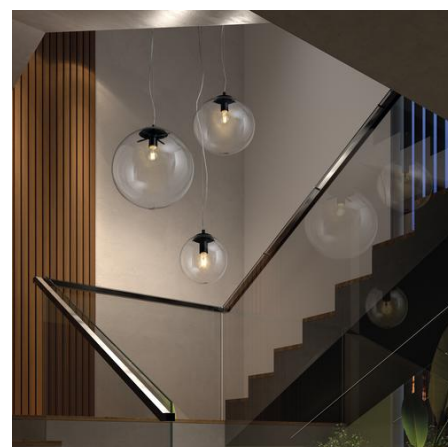

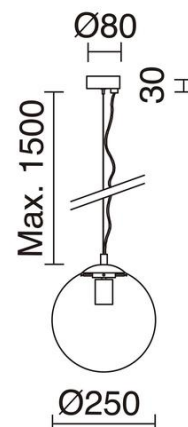

LED Bulb	
Light source power	6 W
Lamp included	No
TC-TSE	
Light source power	20 W
Lamp included	No
HAL	
Light source power	40 W
Lamp included	No

LIGHT BEAMS

Beam	Diffuse
