

# Brilliant \_Floor lamp

The Brilliant floor lamp features three tall cylindrical polycarbonate diffusers arranged on a tripod structure, creating a uniform and scenic light effect. The die-cast aluminum frame is painted and available in three finishes: white, black, and gold. The LED light source with TRIAC dimming offers three color temperatures: 2200 K, 2700 K, and 3000 K. The generous height and composition of the light elements create a vertical luminous presence suitable for contemporary interiors. The floor lamp is intended exclusively for indoor use (IP20) and operates via direct power cable. This version is ideal as a decorative lighting element in living areas, hotel lobbies, lounges, and hospitality spaces, where vertical volume and enveloping light help define the character of the environment.

LED dimmable IP20
