LERBERGET

Premium family Lerberget gives you the best of the best from Brafab. Materials of the best quality, but also a high level of design in every detail. Sit down, and you will most likely be surprised by the excellent seating comfort in the re-bouncing foam in the cushions. The elegance in the colour tones blend this furniture group into any house, garden or public area. A piece of furniture for generations!

High quality materials and a high level of design in every detail.
A piece of furniture for generations.

The only thing that is less is the material; stainless.

Crafted from top-tier materials and meticulously designed, every piece exudes sophistication. Sink into unparalleled comfort with the re-bouncing foam cushions, promising a delightful seating experience. The heavy construction in stainless steel is also perfect for coastal environments.

- Dusty Green / Ash
- Anthracite / Ash

The cushions in Lerberget are in water-repellent acrylic fabric where the inside has a thin (but effective) layer of a liner which blocks out water so the inside does not get wet. The liner we use is transparent and flexible, so you won't feel any difference on the outside compared to a fabric without a liner.

Quite simply, a fabric made for outdoor furniture.

Hallavara Coffee table.

Niobe Side table.

The **Hallavara** coffee tables suits perfectly in, when you like to furnish your outdoor space with both great materials and beautiful design together with Lerberget lounge. Choose to have 2 small tables in front of your sofa or one extra big one!

Function and elegant design is combined in this **Niobe** side table. The table comes with a decorative ring on the top, that functions as handle when you need it somewhere else. A stone weight in the bottom ensures that the table is stable under all conditions.

Both tables comes in natural and smooth colour which makes it easy to combine with **Lerberget** for an outdoor space to die for.

If you want to combine **Lerberegt** lounge with a dining set, **Innes** Chair and **Nox** Dining table are a perfect match.

Nox gives you possibilities to have a dining table just in your taste. The Nox table base comes in 3 colours and 2 sizes, both for generous seating. Choose between Teak, Bamboo or High Pressure Laminete (HPL) as tabletop. The bamboo and teak top gives you that warmth natural feeling, which speaks well with the sooth colours of the frame.

The tabletop in HPL gives a more minimalistic impression as well as it is very practical and robust.

Nice comfort and affordable design is always in focus when Brafab design new products. The Innes chair is a good example of that.
