

Ply

Pocci + Dondoli · 2017

Demonstration that the layering of design experiences succeeds in summarising, in a pure graphic sign, the functionality of a forward-focussed, desirable object. A new design classic made unique through high-quality details and nishes and made from ordinary materials.

Available models

Stackable chair with steel frame. Seat and back in polypropylene reinforced with glass fibre, available also covered with cow-hide and cuoietto. The polypropylene is stabilised anti-UV. Steel legs in conic shape, with triangular section. The stool (not stackable) has the same characteristics as the chair.
